

Golden Spike Buffalo Range Presents The 2018 Hunter Rifle Steel Match

May 12th, and September 15th 2018

<http://goldenspikerange.com/>

The purpose of this match is to exercise our hunting rifles in field conditions similar to what we would encounter big game hunting.

Any hunting rifle with a light weight barrel shooting a cartridge in .24 to .32 caliber (excluding .300 RUM and similar) may be used. Hunting style scopes, slings, bipods, shooting sticks, and range finders will be allowed. We will allow the use of ballistic turrets that are calibrated for the specific cartridge the rifle is chambered in. All ammunition must be loaded with lead core bullets. Target/Varmint rifles, and associated target equipment will not be allowed.

The shooting course will involve moving to four different shooting points on the property. An ATV of some sort is mandatory, as the course will cover around two miles. Four to five life sized steel targets of game animals will be located at each firing point. Ranges to the targets can vary from 100 yards to over 600 yards. Each target will require a various number of shots each, and the course of fire will be 50 shots for record.

The match will be held at the Golden Spike Buffalo Range. (See the map for directions) The match will begin **promptly at 0900** with practice from the firing line starting as soon as it is light enough to shoot.

Entries are limited to 40 shooters. Fee for the match will be \$25.00.

Prizes: Trophies will be awarded to the top three shooters.

Camping at the range is available for \$5. Toilet facilities are available at the range, but no water is available so plan accordingly
